1. Introduction

1.1 Topic of the website

- Tourism

1.2 Group members

Student 1 - Kavithma Ganguli (w1867456 - 20210369)

- Presentaion Page
- Buy Products

Student 2 - Ilsara Pathirage (w1867461 - 20210378)

- Main Page
- Query Form

Student 3 - Kamil Thenuwara (w1867087 - 20210331)

- Quiz
- Student Details

Student 4 - Bimali Tissera (w1867096 - 20210337)

- SVG Diagram
- Thumbnail Images

1.3 We had our group meetings as follows,

Group Coursework Meetings	
1	Date & Time: 5 th March 2022 (online) Objective: To decide a topic and assign student roles Attended: All students attended Your Contribution: I suggested Tourism and Art Topics as my options
2	Date & Time: 7 th March 2022 (online) Objective: Created a wireframe Attended: All students attended Your Contribution: I suggested creating our wireframe using 'figma' software and start working on it
3	Date & Time: 8 th March 2022 (online) Objective: Created a wireframe Attended: All students attended Your Contribution: Finished Wireframe
4	Date & Time: 12 th March 2022 (online) Objective: Created server URL Attended: All students attended Your Contribution: Created UOW FTP server link
5	Date & Time: 15 th March 2022 (online) Objective: Home page Attended: All students attended Your Contribution: Started to create Home page
6	Date & Time: 18 th March 2022 (online) Objective: Basic HTML and CSS structure Attended: All students attended Your Contribution: Design of the Navigation Bar
7	Date & Time: 22 nd March 2022 (online) Objective: Created Logo and editors pages Attended: All students attended Your Contribution: I suggested logo design and start creating using photoshop
8	Date & Time: 23rd March 2022 (online) Objective: HTML and CSS structure JavaScript Attended: All students attended Your Contribution: Shared Navigation bar with team members

9	Date & Time:	25th March 2022(Online)
	Objective:	Additional page
	Attended:	All students attended
	Your Contribution:	I suggested creating additional page of tours in Sri Lanka
10	Date & Time:	27th March 2022(Online)
	Objective:	Finalized all pages and validation part
	Attended:	All students attended
	Your Contribution:	Shared all the pages and connected each pages together.

2. Technical Discussion

I'm Ilsara Pathirage and I'm the leader of the group E - 8 for the Web Design and Development coursework. We took the topic " Tourism " and the name of our web site is " Serendib Tours ".

The parts allocated to student 1 are Home page, Query Page and Navigation bar.

2.1 Main Site navigation Bar

The top of every page has the navigation bar with website logo displayed in left side and useful links which user can access several parts of the website easily. This navigation Bar contain hover effects and link becomes active and colour changes when user click on it. Main web pages of the 'Serendib Tours' displayed on the navigation bar.

CSS can be used to transform plain HTML menus into visually appealing navigation bars. For the Navigation bar I used #C4C4C4 colour background bar and I placed navigation bar on it because to give more eye-catch to the user. display: inline-block used to make the list horizontal. I apply padding and margin properties to create space between elements, and defined borders. I used text-decoration = none property to remove the underline name in all the navigation buttons. Border-radius used to curve the navigation buttons edges and also, I used different colours to hover and action activity. I apply box-shadow property to give more attractivity to the navigation bar and it shows shadow to each button.

HTML:

```
<section class="Navigation_Bar">
<nav class="links">
<a href="Home.html"></a>
<div class="Navigation_links" id="navLinks">
    <ul>
        <li><a href="Home.html" class="active">HOME</a></li>
        <li><a href="tours.html" >TOURS</a>
        <li><a href="products.html">PRODUCTS</a></li>
        <li><a href="gallery.html">GALLERY</a></li>
        <li><a href="start.html">QUIZ</a></li>
        <li><a href="studentdetail.html">DEVELOPERS</a></li>
        <li><a href="query.html">CONTACT US</a></li>
    </ul>
</div>
</nav>
</section>
```

CSS:

```

/* Naviagtion Bar */
.Navigation_links .active {
    border: 1px solid white;
    color: white;
    background-color: #3b7a57;
}

.Navigation_links ul li {
    display: inline-block;
    padding: 10px 10px 10px 10px;
    position: relative;
}

.Navigation_links ul li a {
    color: #fff;
    font-size: 13px;
    text-decoration: none;
    cursor: pointer;
    color: rgb(255, 255, 255);
    border: 1px solid white;
    padding: 12px 33px;
    background: #888383;
    position: relative;
    transition: 1s;
    border-radius: 50px;
    box-shadow: 0 10px 10px rgba(65, 47, 47, 0.5);
}

.Navigation_links ul li a:hover {
    border: 1px solid #ffffff;
    background: #404040;
    color: white;
}

```

2.1 External CSS

We used same CSS styles for all the other pages to maintain the consistency of our webpage. For that I shared my navigation styles with all the team members. For the home page as well as buy products page, quiz page, gallery, query page and extra page created for our tours we used same border-radius to curve the buttons and text boxes. And also, we discussed to use same hover effects and box-shadow property to keep the consistency throughout the website. We used curve edged images instead of common images.

Every page contains ‘Bottom to top’ button and we used same CSS effects on ‘Bottom to Top’ button in all the pages. It has hover effects and ‘^’ icon we got from ‘fontawesome’ website, when user clicks on the button automatically, he/she go to the top of the page smoothly.

CSS:

```
.button {  
    display: inline-block;  
    text-decoration: none;  
    color: white;  
    border: 1px solid #fff;  
    padding: 12px 34px;  
    font-size: 13px;  
    font-weight: bold;  
    background-color: #888383;  
    position: relative;  
    cursor: pointer;  
    transition: 1s;  
    border-radius: 50px;  
    box-shadow: 0 10px 10px rgba(65, 47, 47, 0.8);  
}  
  
/* hover */  
.button:hover {  
    border: 1px solid #ffffff;  
    background: #404040;  
    color: white;  
}  
  
/* Back To Top */  
.arrow_up{  
    height: 40px;  
    width:40px;  
    text-align: center;  
    background: #ffc40c;  
    cursor: pointer;  
    position: fixed;  
    bottom: 70px;  
    right: 30px;  
    z-index: 99;  
    border: none;  
    outline: none;  
    line-height: 39px;  
    color:black;  
    border-radius: 15px;  
    background-color: rgba(255,196,12,0.7);  
}  
  
.arrow_up:hover {  
    background-color: rgb(255,196,12);  
}  
  
html {  
    scroll-behavior: smooth;  
}
```

2.3 Query Form

When user click on the contact us button in the navigation bar user redirect into the page called Query page. Query form used to send a query related to website content. This query form consist with two text input fields, one email input, four drown down menu list and text area. When the 'view query' button clicked 'validateForm' function activated and check that user has filled-in the compulsory fields like first name, last name, email, subject and details using JavaScript. If these compulsory fields are not filled pop up message will show to the user that field should be filled. And also 'emailRangeCheck' used to check that user entered email is valid. Otherwise, user can't view the query details.

HTML:

```
<div class="query_input">
    <label for="fname">First Name</label>
    <input type="text" class="form_input" name = "First name" id="fname">
</div>
```

JavaScript:

```
function validateForm() {
    var fname = document.getElementById("fname").value;
    var lname = document.getElementById("lname").value;
    var email = document.getElementById("email").value;
    var details = document.getElementById("details").value;
    var subject = document.getElementById("subject").value;
    var emailRangeCheck = /^[^<>()\\.,;:\\s@"]+(\.[^<>()\\.,;:\\s@"]+)*(\.+)@((\[[0-9]{1,3}\]\.[0-9]{1,3}\]\.[0-9]{1,3}\]\.[0-9]{1,3}\]\.[0-9]{1,3}\]\.[0-9]{1,3}\])|(([a-zA-Z-0-9]+\.)+[a-zA-Z]{2,}))$/;

    if (fname == "") {
        alert ("Please enter your First Name");
        return false;
    }
}
```

```

if (lname == "") {
    alert ("Please enter your Last Name");
    return false;
}

if (email == "") {
    alert ("Please enter your Email");
    return false;
}

if(!emailRangeCheck.test(email)){
    alert ("Please enter a valid Email");
    return false;
}

if (subject == "") {
    alert ("Please select a subject");
    return false;
}

if(details == "") {
    alert ("Please enter details");
    return false;
}

```

After user filled all the details correctly and click on the 'view query' button form disappears and user can see a display with all the details to check again before submit. If user wants to change anything he/she can click on 'Edit' button and this is replaced with the initial form which reappears with information filled in. Otherwise, user can click 'Send' button to submit the query via email and displayed details will disappear.

JavaScript:

```

var detail_box = document.getElementById("getdetail");
var btn = document.getElementById("view");
var span = document.getElementsByClassName("edit")[0];

btn.onclick = function() {
    detail_box.style.display = "block";
}

span.onclick = function() {
    detail_box.style.display = "none";
}

window.onclick = function(event) {
    if (event.target == detail_box) {
        detail_box.style.display = "none";
    }
}

document.getElementById("data").innerHTML="First Name : "+fname+"<br><br>"+Last Name :
"+lname+"<br><br>"+Email: "+email+"<br><br>"+Subject: "+subject+"<br><br>"+Details:
"+details;

document.getElementById("view").click();

}

```

When user click on submit button mail app will open and it'll fetch all the information filled in the query form. It will be sent to serendibtourssl@gmail.com automatically via your email app.

2.4 Main Page

When the website loads after the presentation page, this is the first glance. The top of the webpage includes a navigation bar with the website logo displayed on the left side and useful links that allow users to easily access various parts of the website.

After the navigation bar user can see slideshow with six images. These images are tourist attractions places in Sri Lanka. For the slideshow images also have hover effect which will show 'Serendib Tours', the place of the image and a small description about that place.

HTML:

```
<div class="Slides fade">
  <div class="num">4 / 6</div>
  
  <div class="overlay">
    <div class="slidetext">
      <h1 class="topic">SERENDIB TOURS</h1><br><br><h2>Yala National Park</h2><p><br><br>Yala combines a strict nature reserve with a national park. Divided into 5 blocks. Among its more famous residents are the world's biggest concentration of leopards, majestic elephants, sloth bears, sambar, jackals, spotted deer, peacocks, and crocodiles. The best time to visit Yala is between February and July when the water levels of the park are quite low, bringing animals into the open. </p>
    </div>
  </div>
</div>
```

CSS:

```

/* slides hover */
.slideshow_container {
  position: relative;
  width: 100%;
}

.slides {
  display: block;
  width: 100%;
  height: auto;
  max-height: 650px;
}

/* slides over transition*/
.overlay {
  position: absolute;
  top: 0;
  bottom: 0;
  left: 0;
  right: 0;
  height: 100%;
  width: 100%;
  opacity: 0;
  transition: .7s ease;
  background-color: rgba(0,0,0,0.4);
}

.slideshow_container:hover .overlay {
  opacity: 1;
}

/* slides over words */
.slidetext {
  color: white;
  position: relative;
  padding: 0 130px;
  text-align: center;
  top: 50%;
  left: 50%;
  -webkit-transform: translate(-50%, -50%);
  -ms-transform: translate(-50%, -50%);
  transform: translate(-50%, -50%);
}

```

JavaScript:

```

/* Slideshow */
var slideIndex = 0;
showSlides();

function showSlides() {
  var i;

```

```

var slides = document.getElementsByClassName("Slides");
var dots = document.getElementsByClassName("bullets");
for (i = 0; i < slides.length; i++) {
    slides[i].style.display = "none";
}
slideIndex++;
if (slideIndex > slides.length) {slideIndex = 1}
for (i = 0; i < dots.length; i++) {
    dots[i].className = dots[i].className.replace(" active", "");
}
slides[slideIndex-1].style.display = "block";
dots[slideIndex-1].className += " active";
setTimeout(showSlides, 4000); // Change image every 4 seconds
}

```

SERENDIB TOURS

Creating and facilitating truly memorable travel experiences in the paradise isle.

Welcome to the website of Sri Lanka's num one Destination Management Company, which provides a wonderful travel experience with access to the best hotels, tourist attractions, and activities in the country.Serendib Tours welcomes all types of travelers to a haven of leisure and relaxation, offering a full range of travel tours and unique encounters centered on a tropical culture and colorful history that attempts to transport you back in time.

[See More](#)

This is a breif description about our website and what are our services. Right side of the description we displayed our logo. Bottom of the box there is a button called 'See more' and it also have hover effects. When user clicks on that button he/she redirect into the tours page which we provide three tours around the country.

PRODUCTS

[See More](#)

This box shows the image of products we selling like cane baskits,traditonal masks etc. There is also button called 'See more' and when user clicks on the button it redirect into 'buyproducts' page. This 'See more' button has hover effect which will turn into dark grey colour when mouse goes over.

Bottom of every page has footer consist with our name, phone number, local address, email address. And also, there are social media to contact us, watch what we have done earlier and update user. 'Page Developer' is linked left corner of the footer, along with right corner button linked to the 'Sitemap'. This page consists a back to top button for user's efficiency. This button will appear only if user scroll down 700 pixels from top of the webpage. This bottom to top button also has hover effect.

HTML:

```
<i class="fa-solid fa-angle-up" onclick="topFunction()" title="Go to top"></i>
```

JavaScript:

```
myicon = document.getElementById("up_btn");

// Scrolls down 700px, show the button
window.onscroll = function() {scrollFunction()};

function scrollFunction() {
  if (document.body.scrollTop > 700 || document.documentElement.scrollTop > 700) {
    myicon.style.display = "block";
  } else {
    myicon.style.display = "none";
  }
}

function topFunction() {
  document.body.scrollTop = 0;
  document.documentElement.scrollTop = 0;
}
```

2.5 Page Editor page

This page includes the name of the developer, image and tasks completed. For each individual developer has a separate page.

2.6 Tours Page (Extra content page)

The screenshot shows a web browser window with the title 'Serendib Tours | Tourism'. The navigation bar includes links for 'HOME', 'TOURS' (which is highlighted in green), 'PRODUCTS', 'GALLERY', 'QUIZ', 'DEVELOPERS', and 'CONTACT US'. Below the navigation bar, there is a section titled 'Visit Srilanka' with a map of Sri Lanka showing major cities like Colombo and Galle. To the left of the map, there is a descriptive paragraph about Sri Lanka's tourism.

Top of the page includes small description about Sri Lankan tourism and google of the Sri Lanka.

<h1 class="topic">SERENDIB TOURS</h1><br><br><h2>Temple
Of Tooth Relic - Kandy</h2><p><br><br>Temple of the Sacred
Tooth Relic commonly known as the Sri Dalada Maligawa. It is
located in the royal palace complex of the former Kingdom of
Kandy, which houses the relic of the tooth of the Buddha. Since
ancient times, the relic has played an important role in local politics
because it is believed that whoever holds the relic holds the
governance of the country. The relic was historically held by
Sinhalese kings. The temple of the
tooth is a World Heritage Site mainly due to the temple and the
relic.</p>

            <h1 class="topic">SERENDIB TOURS</h1><br><br><h2>Coral Sanctuary - Hikkaduwa</h2><p><br><br>Hikkaduwa coral reef is a typical shallow fringing reef with an average depth of around 5 metres (16 ft). The coral reef reduces the coastal erosion and forms a natural breakwater. Staghorn, elkhorn, cabbage, brain, table and star corals are all present in the reef. Corals of 60 species belonging to 31 genera are recorded from the reef. The reef also recorded over 170 species of reef fish belonging to 76 genera. Seagrasses provide habitat to dugongs and sea turtles. Some species of prawns feed on the seagrass. Eight species of ornamental fishes also inhabit the reef, along with many vertebrates and invertebrates including crabs, prawns, shrimps, oysters and sea worms. Porites desilveri is an endemic coral species of Sri Lanka.</p>

```

<p>2 nights 3 days. The annual Nallur Kovil festival attracts thousands of devotees and visitors. The temple is filled with intricate artwork and statues of gods and deities of the Hindu culture. Jaffna Public Library is one of Jaffna's most notable landmarks, it was one of the biggest libraries in Asia. Today, The Jaffna Fort is a popular attraction for all visitors to the city, with open grounds and century-old walls that can be scaled upon as you take in the views of Jaffna around you.

</p>

</div>

<div class="timeline-content">

<h1>Day 02</h1>

<p>

Nagadeepa Viharaya, the temple at Nainativu Islands, is one of the most venerated places of worship of the local and foreign Buddhists. They were selling palmyrah jaggery, popcorn, fruits and conch shells that are common in the area.

Dambakola Patuna can be reached via road on a 45-minute journey from Jetwing Jaffna. overlooking the azure waters of the Palk Strait. On a clear day, you may even be able to see the edge of India's southern coastline</p>

</div>

<div class="timeline-content">

<h1>Day 03</h1>

<p>Nilaveli's stretch of sand is considered one of Sri Lanka's best beaches and with its paradise-island remoteness, swaying palms and golden tinge to the shore, it's easy to see why. As such, it's a surprise that it is so little frequented. A few modest resorts are tucked above the line and Pigeon Island, which offers great snorkelling opportunities, is a short boat ride away.

</p>

- **kandy.html**

The screenshot shows a web browser window with the title "Serendib Tours | Up Country Tou x". The address bar indicates the file is located at "C:/Users/hp/OneDrive/Desktop/Web/kandy.html". The main content area displays a light blue header with the text "Day 02" in white. Below the header is a circular image showing a large, modern building complex surrounded by lush greenery and hills. To the right of the image, there is descriptive text about Hakgala and the Tea Factory.

Hakgala is a temperate hill-country garden, where the lovely low-country lotus and water lily ningles in their serene simplicity with sophisticated English roses, pre-historic looking ferns, and endemic orchids. A stay at **Heritance** **Tea Factory** would not be complete without an adventure through the neat terraces of tea. This excursion is a tad bit different from your typical day trips.

[SiteMap](#)

- [jaffna.html](#)

Jaffna Tour

Day 01

2 nights 3 days. The annual **Nallur Kovil** festival attracts thousands of devotees and visitors. The temple is filled with intricate artwork and statues of gods and deities of the Hindu culture. **Jaffna Public Library** is one of Jaffna's most notable landmarks, it was one of the biggest libraries in Asia. Today, **The Jaffna Fort** is a popular attraction for all visitors to the city, with open grounds and century-old walls that can be scaled upon as you take in the views of Jaffna

Day 02

Nagadeepa Viharaya, the temple at Nainativu Islands, is one of the most venerated places of worship of the local and foreign Buddhists. They were selling palmryah jaggery, popcorn, fruits and conch shells that are common in the area. **Dambakola Patuna** can be reached via road on a 45-minute journey from Jetwing Jaffna, overlooking the azure waters of the Palk Strait. On a clear day, you may even be able to see the edge of India's southern coastline

Day 03

Nilaveli's stretch of sand is considered one of Sri Lanka's best beaches and with its paradise-island remoteness, swaying palms and golden tinge to the shore, it's easy to see why. As such, it's a surprise that it is so little frequented. A few modest resorts are tucked above the **line and Pigeon Island**, which offers great snorkelling opportunities, is a short boat ride away.
